

Chapter 1

Calculus

Lectured by Professor Demetrios Papageorgiou

Typed by Yu Coughlin

Autumn 2023

0 Introduction

The following are suggested textbooks:

- G F Simmons, Calculus with Analytic Geometry, 1995
- J Stewart, Calculus, 2011
- S Lang, A First Course in Calculus, 1986
- S Lang, Undergraduate Analysis, 1997
- J Marsden and A Weinstein, Calculus I and Calculus II, 1985

Lecture 1

Thursday

10/01/19

Contents

	1	Calculus	1
	0	Introduction	1
Lecture 1	1	Additions to analysis	3
	1.1	Differentiation	3
	1.2	Integration	3
	1.3	Lengths, volumes and surfaces	3
	1.4	Estimatins	3
	2	Fourier series	3
	2.1	Orthogonal and orthonormal function spaces	3
	2.2	Periodic functions	3
	2.3	Trigonometric polynomials	3
	2.4	Fourier series	3

1 Additions to analysis

1.1 Differentiation

1.2 Integration

1.3 Lengths, volumes and surfaces

1.4 Estimatin

2 Fourier series

2.1 Orthogonal and orthonormal function spaces

2.2 Periodic functions

2.3 Trigonometric polynomials

2.4 Fourier series
